

Aaron Carl Villaroman

Baliwag Bulacan, | +63 968 729 4681 | eycivillaroman@gmail.com | [LinkedIn](#) |

Education

National University – Baliwag

Bachelor of Science in Information Technology, Specialization in Mobile and Web Applications

- Relevant Coursework: Mobile Development, Web Development, Database Management, Software Engineering

Work Experience

Freelance IT Technician & Software Engineer

- Built and configured custom PCs, including hardware assembly, OS installation, and client-specific setup.
- Designed, developed, and delivered applications and websites in accordance with client specifications.

Leadership & Activities

Google Developer Students Club

National University Baliwag

Active member

- Participated in campus tech events, coding activities, and workshops to explore new technologies and strengthen programming fundamentals.

AWS Cloud Club

National University Baliwag

- Participated in workshops and activities focused on cloud computing fundamentals, including AWS services, cloud architecture, and hands-on labs.

Projects

MindConnect — Mobile Mental Health Support Platform

Flutter | Firebase | Node.js

- Built a cross-platform mobile app that allows users to chat with an AI mental health assistant, complete guided self-assessments, and access personalized coping strategies.
- Developed community forums where users can connect in real time, share experiences, and provide peer support in a safe and supportive environment.
- Progress-tracking features that help individuals monitor their mental well-being over time and stay engaged in their personal growth.

- Developed a cross-platform mobile app that translates Filipino Sign Language (FSL) into text and voice in real time, enabling Deaf and hearing users to communicate more easily.
- Created interactive learning modules with gamified exercises and progress tracking to support both learners and instructors in studying FSL.
- Promoted the use of FSL by making it accessible on mobile devices, encouraging everyday communication practice and fostering inclusivity between Deaf and hearing communities.

Plant.io — Web App for Agriculture Forum & Forecasting**HTML | CSS | JavaScript | OpenWeather API**

- Designed and developed a web platform for real-time agricultural discussions and knowledge sharing.
- Integrated plant care guidance and localized weather forecasting to support informed farming decisions.
- Built an engaging, responsive interface to enhance participation and collaboration within the agricultural community.

Technical Skills

Programming Languages: Python, Java, Kotlin, C++, C#, PHP, Dart, JavaScript, TypeScript**Frameworks & Libraries:** React, Next.js, Node.js, Flutter, Bootstrap, Tailwind CSS, Laravel, Express.js**Databases:** MySQL, SQL, MongoDB, Firebase**Developer Tools:** Git, GitHub, Visual Studio Code, Android Studio, IntelliJ IDEA, Docker, Postman, Figma, Adobe Photoshop, Notion**Other Skills:** PC assembly, troubleshooting, performance optimization**Certifications**

IRCITE 2025 – Paper presentation recognized with a Certificate of Appreciation – April 2025**Microsoft Office Specialist (MOS)** – Certified in Microsoft Office applications**FreeCodeCamp** – Responsive Web Design, JavaScript Algorithm and Data Structures.
